## EDUCATIONAL BACKGROUND

**Bachelor of Computer Engineering**  
Iran

2024 - Present

## SKILLS

Python, C++

AI Agents (Prompt Engineering)

Technical Analysis

Excel

Power BI

Databases

Pandas, NumPy and Matplotlib

TensorFlow, PyTorch and Scikit-Learn

Portfolio Optimization

Quantitative Analysis

Teaching and Translating English

Django

Data Structures and Algorithms

Git and GitHub

APIs

## LANGUAGES

**English** : Upper Intermediate

**Persian** : Proficient

## WORK HISTORY

### Programming Teacher

Abarkelas

Tehran, Iran

August 2024 - Present

#### Tasks and Achievements

- Taught 50+ students, designing structured lessons and hands-on projects to enhance their programming skills, problem-solving abilities, and real-world application of coding concepts.

### Data Analyst

Foodex Iran

Tehran, Iran

July 2023 - Present

#### Tasks and Achievements

- Worked with data engineers and analysts to optimize data pipelines, improving processing efficiency by 20%.

### English Translator

Git.ir

Iran

August 2024 - December 2024

#### Tasks and Achievements

- Translated educational and technical content from English to Persian with accuracy and cultural relevance.

## CERTIFICATION

### Python for Data Science

September 2023
